

LETTER TO CHURCHES

Dear Friends,

April 16 is National Healthcare Decisions Day. The Community Hospice encourages everyone to have in place a Health Care Proxy to assure that personal wishes are carried out when medical decisions must be made by someone else.

Please include something like the following in your worship notices or announcements:

April 16 is observed as National Healthcare Decision Day, a time for starting discussions with family members regarding one's health care wishes, and finding out about appointing a person to be one's health care proxy. Forms and information are available on The Community Hospice web site <http://www.communityhospice.org/page.aspx?pid=267>

If your faith community would like a presentation on health care proxies, please call Pat Spreitzer at 285-8174 and we will be glad to arrange it at your convenience.
