

## Remarks from Al Charbonneau

President, Rochester Health Commission

The Rochester Healthcare Forum is a grouping of over 400 people and 40 organizations working on 13 initiatives across the community. Excellus has contributed enormously to all of the initiatives and end of life services is no exception.

I believe one of the basic foundations for a model health care community is high quality end of life services as envisioned by Dr. Bomba, Excellus, and the Community-Wide Advisory Committee.
