
By Robert N. Swidler, Esq.

Introduction

The Family Health Care Decisions Act governs health care decisions for patients in hospitals or nursing homes who lack capacity and who did not previously appoint a health care agent. However, a section in the FHCDA identifies circumstances where decisions for adult patients with mental disabilities are governed by laws or regulations other than the FHCDA, specifically NY Surrogate Court Procedure Act Article 17-A (the Health Care Decisions Act for People with Developmental Disabilities), MHL Article 80 (Surrogate Decision Making Committees), or OPWDD or OMH surrogate decision-making regulations.

I developed the two charts below to help hospitals and nursing homes identify the applicable decision-maker, and the applicable law or regulation, for consent to treatment, or to withdraw or withhold life-sustaining treatment, for adult hospital and nursing home patients with mental disabilities in different circumstances. There is a chart for patients with developmental disabilities, and a chart for patients with mental illness.

During Nov.2010 - Jan. 2011, Greater New York Hospital Association convened a group that reviewed and proposed corrections and improvements to an earlier version of these charts. Eileen Zibell, Associate Attorney for OPWDD, John Tauriello, Counsel to OMH and John Carroll, Deputy Counsel to OMH, also participated in that review, and suggested edits to the charts. This revised version is the product of that review.

A few caveats:

• These charts reflect only the views of the author.
• These charts do not reflect the official guidance of any state agency.
• Some of these issues are not clearly resolved, or are subject to conflicting interpretations.
• These charts point to the applicable laws and regulations and the decisionmaker, but do not summarize other requirements or conditions relating to such decisions.
• Ultimately, users must rely upon the language of the applicable laws and regulations, and any official guidance provided by the applicable agency. These charts are not a substitute for legal advice.

Even with those caveats, these charts should be useful. Please direct any corrections, suggestions to swidlerr@nehealth.com.
## Surrogate Decision-Making for Incapable Adult Patients With Developmental Disabilities: A Chart of the Applicable Laws and Regulations

<table>
<thead>
<tr>
<th>Follow the rules in the first row that applies:</th>
<th>Decisions in Hospitals and Nursing Homes</th>
</tr>
</thead>
<tbody>

1 General Counsel, Northeast Health, Troy NY. Mr. Swidler is Editor of the *NYSBA Health Law Journal*, and Editor of the NYSBA FHCDA Information Center.

2 The relevant clauses of the FHCDA are PHL § 2994-b.3-4, which state:

3 Prior to seeking or relying upon a health care decision by a surrogate for a patient under this article, if the attending physician has reason to believe that the patient has a history of receiving services for mental retardation or a developmental disability; it reasonably appears to the attending physician that the patient has mental retardation or a developmental disability; or the attending physician has reason to believe that the patient has been transferred from a mental hygiene facility operated or licensed by the office of mental health, then such physician shall make reasonable efforts to determine whether paragraphs (a), (b) or (c) of this subdivision are applicable:

(a) If the patient has a guardian appointed by a court pursuant to article seventeen-A of the surrogate's court procedure act, health care decisions for the patient shall be governed by section seventeen hundred fifty-b of the surrogate's court procedure act and not by this article.

(b) If a patient does not have a guardian appointed by a court pursuant to article seventeen-A of the surrogate's court procedure act but falls within the class of persons described in paragraph (a) of subdivision one of section seventeen hundred fifty-b of such act, decisions to withdraw or withhold life-sustaining treatment for the patient shall be governed by section seventeen hundred fifty-b of the surrogate's court procedure act and not by this article.

(c) If a health care decision for a patient cannot be made under paragraphs (a) or (b) of this subdivision, but consent for the decision may be provided pursuant to the mental hygiene law or regulations of the office of mental health or the office of mental retardation and developmental disabilities, then the decision shall be governed by such statute or regulations and not by this article.

4. If, after reasonable efforts, it is determined that a health care decision for the patient cannot be made pursuant to subdivision two or three of this section, then the health care decision shall be made pursuant to this article.

3 The chart review group was convened by Lorraine Ryan, Senior Vice President, Legal, Regulatory and Professional Affairs Greater NY Hospital Association and Sara Kaplan-Levenson, Project Manager, Regulatory and Professional Affairs, Greater NY Hospital Association. Participants included John V. Campano (NY Presbyterian), Joan Hauswald (NY Presbyterian), Deborah Korzenik (Continuum Health Partners); Lynn Hallarman, M.D. (SUNY Stony Brook Health Science Center); Jonathan Karmel (NYS Department of Health); Karen Lipson (NYS Department of Health); Carolyn Wolf (Abrams Fensterman). Paul Kietzman (NYSARC) also commented independently. I am very grateful to these reviewers – their work has improved these charts greatly.

4 It would seem that the designation of a surrogate (whether under SCPA §1750-b, 10 NYCRR §633.11 or the FHCDA) is not necessary if the incapable person, previously when capable, personally consented to the treatment.

5 It would seem that the designation of a surrogate (whether under SCPA §1750-b, 10 NYCRR §633.11 or the FHCDA) is not necessary if the incapable person, previously when capable, left clear and convincing evidence of a wish to forgo treatment under the circumstances presented. The FHCDA, in PHL §2994-d.3(a)(ii), provides guidance as to the type of evidence that would suffice.

6 NY PHL §2982.

7 NY PHL §2982.
NY SCPA §1750-b.1.

NY SCPA §1750-b.1.

NY SCPA §1750-b is inapplicable because its non-court process for authorizing an involved family member, Consumer Advisory Board or SDMC to act as a “guardian” is limited to decisions to withdraw or withhold life-sustaining treatment. See §1750-b.1(a) When a health care decision for the patient cannot be made pursuant to the SCPA or Mental Hygiene Law or regulations, the FHCDA becomes applicable. NY PHL §2994-b.4. Accordingly, the FHCDA becomes applicable, and a FHCDA surrogate can consent to such treatment per PHL §2994-d.

NY SCPA §1750-b(a) applies because its non-court process for authorizing a family member to act as guardian applies to decisions to withdraw or withhold life-sustaining treatment. See §1750-b.1(a). Qualified family members are identified in 14 NYCRR §§633.10(a)(7)(iv)(c).

The OPWDD surrogate list promulgated pursuant to NY SCPA §1750-b(a) does not provide for the authorizing of a “close friend” to act as “guardian.” See 14 NYCRR §633.10(a)(7)(iv)(c). However, NY SCPA §1750-b.1(a) provides that when no other surrogate is available, the MHL Article 80 SDMC may act as guardian for purposes of making the withdrawal or withholding of treatment decision.

Most patients with developmental disabilities and who do not have a guardian or family will qualify for decisions by an SDMC. See MHL §80.3(b).3 (definition of “patient in need of surrogate decision-making”). Moreover, once a person is eligible for decisions by an SDMC, the person remains eligible regardless of a change in residential status. MHL §80.03(b). As a result, the FHCDA provisions on consent for patients without surrogate generally are not applicable. See §2994-b.3(c). In the relatively rare event where SDMC lacks jurisdiction for a patient, the FHCDA would apply.

Per NY SCPA §1750-b.1(a), when no other surrogate is available, the MHL Article 80 SDMC may act as guardian for purposes of making the withdrawal or withholding of treatment decision.

14 NYCRR §633.11 provides surrogate decision-making rules for persons who are “residents of a facility operated or certified by OPWDD. Such persons, when hospitalized, are still residents of OPWDD facilities and subject to this regulation.

14 NYCRR §633.10 implements SCPA 1750-b for residents of OPWDD licensed and operated facilities.

See n.11

Per PHL §2994-a.21: “Mental illness” means a mental illness as defined in subdivision twenty of section 1.03 of the mental hygiene law, and does not include dementia, such as Alzheimer’s disease, or other disorders related to dementia. Per MHL §1.03(2): “Mental illness” means an affliction with a mental disease or mental condition which is manifested by a disorder or disturbance in behavior, feeling, thinking, or judgment to such an extent that the person afflicted requires care, treatment and rehabilitation.

This chart points to the applicable law or regulation, but does not provide a complete summary of the applicable law or regulation.

PHL §2884-d(a).

Id.

Id.

Id.

PHL §2994-b.3(c) provides that if a health care decision can be made pursuant to the Mental Hygiene Law, then the decision is governed by such statute. Accordingly, if the decision can be made pursuant to MHL Art. 80 then the decision is governed by MHL Art. 80.
decision can be made by an SDMC for a person who is “a resident of a mental hygiene facility including a resident of housing programs funded by an office of the department [of mental hygiene] or whose federal funding application was approved by an office of the department or for whom such facility maintains legal admission status therefor; or receiving home and community-based services for persons with mental disabilities provided pursuant to section 1915 of the federal social security act; or receiving individualized support services ….” Also, note that MHL Art. 80 and the FHCDA have some differences in the scope of major medical treatments that can be authorized pursuant to their procedures.

25 PHL §2994-b.4 provides that “If, after reasonable efforts, it is determined that a health care decision for the patient cannot be made pursuant to subdivision two or three of this section, then the health care decision shall be made pursuant to this article.” Accordingly, if MHL Art 80 is inapplicable, then the FHCDA, and specifically PHL §2994-g, becomes applicable.

26 There is no applicable Mental Hygiene Law or OMH regulation. Accordingly, PHL §2994-g.5 applies.

27 If the patient was discharged from the OMH-regulated facility or unit, then OMH regulations become inapplicable, and the FHCDA applies.

28 If the patient was discharged from the OMH-regulated facility or unit, then OMH regulations become inapplicable, and the FHCDA applies. But even if the patient was not discharged, there still is no applicable Mental Hygiene Law or OMH regulation. (MHL Art. 80 is inapplicable because it does not authorize the SDMC to make decisions to withdraw or withhold life-sustaining treatment). Accordingly, per PHL §2994-b.4, the FHCDA becomes applicable.

29 Both provisions are available as a means to secure consent to treatment.

30 There is no applicable mental hygiene law or regulation. (MHL Art. 80 is inapplicable because it does not authorize the SDMC to make decisions to withdraw or withhold life-sustaining treatment). Accordingly, PHL §2994-g.5 applies.
