

Medical Orders for Life Sustaining Treatment

Dear Colleagues,

Recently, I have had many requests for a list of revisions, as well as explanations for those revisions, that took place when the form was approved for use in all settings, including the community, in July 2008.

Attached is the ["2008 Revisions to MOLST" table](#) I have created. It contains:

- a list of revisions that were made on each form (the MOLST form, the Adult Supplemental Form and the Minor Supplemental Form)
- explanations for why each change was made

The revisions reflect modifications based on the legislation and clinical feedback I received statewide between 2005-2008.

Also attached are sample versions of the forms with the **changes noted in red text** so they can be easily identified.

The "2008 Revisions to MOLST" table can be found in the MOLST Training Center. There are links within the table to the [MOLST Form](#), the [Adult Supplemental Form](#) and the [Minor Supplemental Form](#), all with the edits shown in red text. For your convenience, I have also attached all of these documents to this email.

Within the ["2008 Revisions to MOLST" table](#) information about changes to the:

- MOLST Form are on pages 1-4
- Adult Supplemental Form are on pages 5-6
- Minor Supplemental Form are on pages 6-7.

I believe that looking at each form (with the changes noted in red text), side-by-side with the "2008 Revisions to MOLST" table will make identifying the changes to the forms easier and will also allow professionals to understand why the changes were made.

Please let me know if you have any questions.

As always, thank you for your support of the MOLST Program!
